SUMMARY

Full-stack developer with hands-on experience building scalable web applications using Python and the MERN stack. Skilled in developing AI-driven solutions and integrating real-time analytics. Strong foundation in Data Structures & Algorithms, with 100+ coding problems across platforms solved. Demonstrated leadership as project lead for 3 major projects, successfully presenting demos to capstone panels of 10+ faculty/reviewers and securing top "S" grades in all evaluations.

EDUCATION

Vellore Institute of Technology-AP– B.Tech/Bachelor of Computer Science and Engineering **CGPA: 8.25/10.0 2021 - 2025**

Tirumala Junior College – Intermediate **CGPA: 9.75/10.0 2019 – 2021**

Sri Chaitanya Techno School - High School **CGPA: 9.8/10.0 2018 - 2019**

SKILLS

- **Programming Languages:** JavaScript, Python, Java, C++
- **Web Technologies:** HTML5, CSS3 & Tailwind CSS, React.js, Node.js, Express.js, Django, Angular, React Native
- **Databases:** Mongo DB, MySQL, SQL, PostgreSQL
- **Soft Skills:** Team Leadership, Project Management, Problem-solving, Communication, Agile Development
- **Software Engineering:** SDLC, Object-Oriented Programming (OOP), Data Structures & Algorithms, System Design

INTERNSHIP EXPERIENCE

IBM EDUNET SkillBuild – AICTE Internship - Link **08/2025- 10/2025**

- Developed a Taskflow Manager web application for efficient task tracking and management.
- Built the frontend with React.js, implementing responsive UI components.
- Integrated creation, status update, and filtering of tasks.

ETHNUS - MERN Stack Developer - Link **08/2023 - 12/2023**

- Designed comprehensive **Learning Management System (LMS)** with course management, user authentication and assessment features serving 200+ users
- Guided the development of an interactive web interface that resulted in a surge of 20% in student participation in online forums and a demonstrable increase of 15 points in average quiz scores on the platform.
- Working in an Agile development environment, performed more than 10 code reviews that have maintained the code quality to 95% and reduced the occurrence of bugs while improving overall software functionality.

PROJECTS

Learning Management System **05/2025 - 07/2025**

- Built a full-stack LMS using MERN, TypeScript, and Vite.
- Developed course management and student enrollment features.
- Integrated MongoDB Atlas and deployed via Vercel.

AI-Powered Job Portal (with Resume & Role Recommender) **07/2024 - 12/2024**

- Architected and promoted comprehensive job portal with AI recommendation engine, serving 100+ active users
- Initiated secure user authentication system using JWT tokens with role-based access for employers and job seekers.
- Responsive web application built with **React.js, Node.js, Express.js, and MongoDB** ensuring cross-platform compatibility
- Innovated job matching algorithm achieving 85% accuracy in role recommendations, reducing the manual search time by 60%

CERTIFICATIONS

- OCI AI Foundations Associate- **ORACLE**
- MERN Stack Development **- ETHNUS**
- English Proficiency - C1 Advanced Level - **EFSET**
- Python Zero to Hero - **UDEMY**
- Deloitte Technology Job Simulation on **Forage**
- **IBM** – Web Development
